## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: on page 1, line 5, should read "is arranged"..

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 – 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 1 recites the limitation "the collecting unit" in line 13. There is insufficient antecedent basis for this limitation in the claim.

5. Claim 1 recites the limitation "the main element" in 26. There is insufficient antecedent basis for this limitation in the claim.

6. Additionally, claim 1 uses reference numerals 34 and 35 to designate both the screw conveyor and the radially directed flange.

### ***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3653

8. Claims 1 – 11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Buchenau (FR 2,651, 812). Examiner contends that the limitations pertaining to the material to be processed (roadway gravel) is intended use and does not differentiate the claimed apparatus from the reference, which discloses the claimed structural limitations.

*Conclusion*

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art is listed in the 892 and is considered relevant.
